	FEATURES	
Highway	Pipe/Power Line	Stream/Shortline
Secondary Road	Ridge/Physical Feature	Intermittent Stream
Inter Trail/Inter/Ferry	Property/Fence Line	Alto 96
Railroad	Nonvisible Boundary	Glacier
Inset	Inset	Out Area
<p>Where international, state, and/or county boundaries coincide, the map shows the boundary symbol having the highest-ranking of these boundaries.</p> <p>¹ A " " following a place name indicates that the place is also a fap MCD; the false MCD name is not shown.</p> <p>² In 1990, the census-of-vessels population of ships at sea was allocated to census tracts with a "99" suffix. An anchor symbol appeared on the 1990 maps locating a census-of-vessels tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.</p> <p>³ A " " following a block number indicates that the block number is repeated elsewhere in the block.</p>		

Figure 1: Examples of map symbols. The figure shows seven examples of map symbols with their corresponding labels. 1. Highway: A solid black line. 2. Pipe/Power Line: A line with cross-ticks. 3. Stream/Shoreline: A blue line with wavy, irregular edges. 4. Secondary Road: A solid black line with short perpendicular dashes. 5. Ridge/Physical Feature: A line with small, regular, semi-circular bumps. 6. Intermittent Stream: A blue line with a dashed center and wavy edges. 7. Jeep Trail/Walkway/Terrace: A line with small, regular, semi-circular bumps, similar to the ridge symbol but with a different spacing. 8. Property/Fence Line: A line with small, regular, semi-circular bumps, similar to the ridge symbol but with a different spacing. 9. River: A blue line with a dashed center and wavy edges, similar to the intermittent stream but with a different spacing. 10. Ocean: A blue line with a dashed center and wavy edges, similar to the intermittent stream but with a different spacing. 11. Nonvisible Boundary: A dashed line. 12. Railroad: A line with short perpendicular dashes, similar to the secondary road but with a different spacing. 13. Military: A blue line with a dashed center and wavy edges, similar to the intermittent stream but with a different spacing. 14. Inset: A rectangular box with a dashed border. 15. Out Area: A rectangular box with a solid border.

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

¹ A "0" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a "99" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.

³ A "*" following a block number indicates that the block number is repeated elsewhere in the block.

ENTITY TYPE: County
NAME: Lincoln County (041)
ST: Oregon (41)

1990 COUNTY BLOCK MAP (RECREATED)

All legal boundaries and names as of January 1, 1990 as tabulated for the Public Law 94-171 and Summary Tape File products. The boundaries also reflect the feature network and coordinates as of the Census 2000 geographic base. Since 1990 the Census Bureau updated the base from the North American Datum of 1927 (NAD27) to the datum as of 1983 (NAD83) and made numerous updates to the base features from those depicted in 1990. The boundaries shown on this map are for the Census Bureau's statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights or ownership or entitlement.
